

## Performance Testing

### User Acceptance Testing (UAT)

Date	19 June 2025
Team ID	LTVIP2025TMID51764
Project Name	ShopSmart: Your Digital Grocery Store Experience

#### User Acceptance Testing – ShopSmart Grocery Web App

##### Project Overview:

- Project Name: ShopSmart – Your Digital Grocery Store Experience
- Project Description:  
ShopSmart is a full-stack MERN (MongoDB, Express.js, Angular, Node.js) web application designed to enhance the grocery shopping experience for users. It enables customers to explore, filter, and purchase groceries such as fruits, vegetables, dairy, snacks, beverages, and household items from the comfort of their homes. Key features include user authentication, cart management, category filtering, and next-day delivery for late-night orders.
- Project Version: 1.0.0
- Testing Period: June 15, 2025 to June 25, 2025

##### Testing Scope:

- User Registration and Login
- Product Browsing and Filtering by Category

- Adding Items to Cart
- Placing and Confirming Orders
- Order Summary and Delivery Info
- Admin Features: Add/Edit/Delete Products

#### Testing Environment:

- URL/Location:
  - Frontend: http://localhost:3000
  - Backend API: http://localhost:5000 ◻ Credentials  
(if required): ◦ Username: testuser@example.com ◦ Password: password123

#### Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Registration	Navigate to Register Page → Enter details → Click Register	User is registered and redirected to login	As expected	Pass
TC-002	Login and Dashboard Access	Enter email and password → Click Login	User is redirected to homepage	As expected	Pass
TC-003	Add Item to Cart	Navigate to Products → Click "Add to Cart"	Item is added and cart icon updates	As expected	Pass
TC-004	Filter Items by Category	Open dropdown → Select "Dairy"	Only dairy products are shown	As expected	Pass
